# Information

## Workshops

Need help getting started? The SPICE program will be visiting area classrooms to present workshops on project development. If you would like us to visit your class, contact the program coordinator.

A free workshop will held at the Eugene Public Library  
on January 10th, 2017

## Registration Fees

Registration for the Fair is \$20. Scholarships are available to all students with need.

## Instructions & Rules

The complete instructions are on our web site

<http://spicescience.uoregon.edu>

To receive science fair updates email ([spicescience@uoregon.edu](mailto:spicescience@uoregon.edu)) and request to be added to the science fair list

## Basic Rules

The project you present should be your own original work. Students are allowed to present group projects. Projects must fit within the space of the tri-fold board. No live animals or objects requiring power. Contact the coordinator by March 30th if you need a special accommodation for your project
